Objective

Aspiring Software Engineer with strong problem-solving and Data Structures & Algorithms skills, along with knowledge of full-stack development, frontend technologies, and Python. Eager to build scalable solutions, learn continuously, and contribute to innovative software products.

Education

Bachelor of Technology in Computer Science (AI & ML) – 82.52% (up to 6 th semester) Pranveer Singh Institute of Technology, Kanpur	Oct 2023 – June 2027
Intermediate (Class 12th) – 79.6% Ewing Christian Public School, Prayagraj	April 2022–March 2023
High School (Class 10th) – 92.6% Ewing Christian Public School, Prayagraj	April 2020–March 2021

Skills

Programming Languages: C, C++, Python, SQL
Frontend Technologies: HTML, CSS, JavaScript, React.js
Backend Technologies: Node.js, RESTAPI
Tools & Database: Git, GitHub, VS Code, MongoDB, Python Libraries
Core Fundamentals: DSA, DBMS, OOPs
Soft Skills: Problem Solving, Team Collaboration, Self-Motivated

Projects

Healthcare Appointment & Follow-up Manager: - Developed a full-stack healthcare platform using HTML,CSS,JS,Node.js,Express.js and MySQL. - Integrated AI-powered symptom analysis, appointment scheduling, and role-based authentication. - Implemented email notifications, medication reminders, and Google Calendar integration.	Oct 2024 – Jan 2025
Food Redistribution Platform: - Developed a full-stack food redistribution platform using React.js, Node.js. - Built RESTful APIs for food donation, real-time listing, and claiming with role-based authentication. - Designed an optimized database schema and backend workflows to support multiple users efficiently.	Sep 2025–Nov 2025
Multimodal Depression Severity Estimation System: - Building multimodal ML system combining text and audio features - Applying NLP and audio processing to improve prediction accuracy. - Enhancing model performance over unimodal approaches using feature fusion techniques	Ongoing

Certifications

- HTML, CSS, JavaScript - Infosys Springboard (Jan25)
- Python part 1 & 2-Infosys Springboard (Sep24)
- Career Essential in Generative AI by Microsoft and LinkedIn(May2026)

Achievements

- Solved 200+ DSA problems on LeetCode to strengthen problem-solving skills
- Active Github profile with multiple full stack and ML based projects
